

MATTOP CONVEYOR SYSTEM

Available in 6", 12", 18" and 24"

Conveyor Solutions

MCE's MatTop conveyors are a versatile conveyor system that provides maximum flexibility and reliability for packaging applications of various sizes, shapes, and weights requiring gentle and smooth conveying. The side-turning belt construction supports product transportation in minimal floorspace. MatTop conveyors meet a variety of product handling needs, with designs for curves, turns, straights, spirals, metering, inclines and declines.

FEATURES

- Design flexibility, ease of layout
- Efficient and gentle handling
- Low noise level
- Low maintenance requirements
- Fixed or variable speed options

INDUSTRY SEGMENTS

- Snack Food & Bakery
- Packaged Foods
- Contract Packaging
- Beverage
- Personal Care
- Pharmaceuticals
- Household Cleaning Products

APPLICATION TYPES

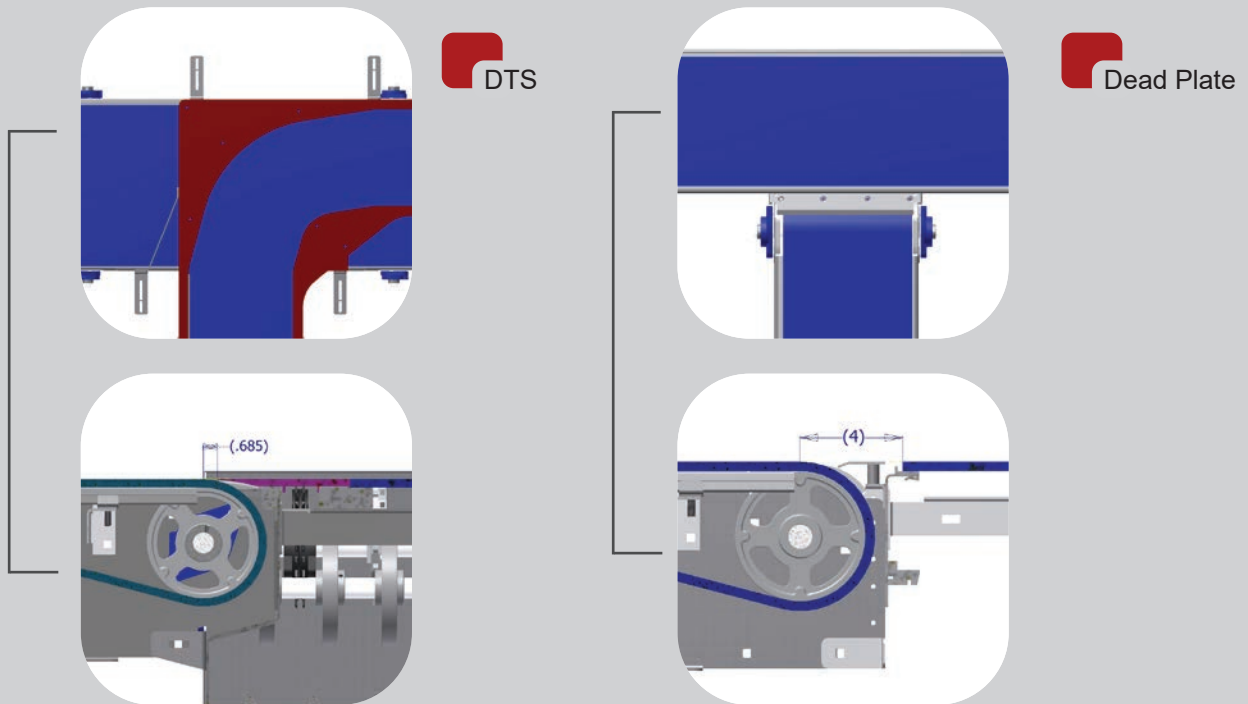

- Bottles
- Cans
- Cartons
- Cases
- Glass
- Pouches
- Pucks
- Trays

Dynamic Transfer Section

Dynamic Transfer Section vs Dead Plate Transfer

The Dynamic Transfer Section allows manufacturers to make tighter turns in a smaller floor space. Capable of handling a variety of product sizes, types, and shapes, the dynamic transfer section features a smooth, live transfer without the use of a dead plate, keeping even the last products moving and ensuring product stability and integrity.
